# ATTENTION – Outprocessing Information

## MOBILIZATION PERSONNEL

### LEAVES/PASSES

**SMs (Service Member) are not authorized leave or passes during processing phases (Inprocessing/Outprocessing/Change of Orders) IAW AR 600-8-10. Emergencies will be handled on a case-by-case basis.**

.....

### PDMRA

**This office will process PDMRA only for SMs on orders serving at 50% in Iraq, Afghanistan, or Kuwait and involuntary mob orders. Orders will not be considered involuntary within a 5 year window. All other applications will have to process through individual units/commands.**

10 USC 12302 – Partial Mob: Soldiers called to involuntary active duty under 10 USC 12302 and the applicable Executive Orders shall not serve on active duty in excess of 24-months under that authority including time for processing through demobilization stations (MS), authorized travel, and to take accrued leave.

The "Post-Deployment/Mobilization Respite Absence (PDMRA)" program applies to qualifying deployments and or mobilizations underway on, or commencing after January 19, 2007.

For Reserve component Soldiers, creditable mobilizations are defined as mobilizations under Title 10, United States Code, sections 12301a, 12302, or 12304. By law, these categories of mob orders are considered "involuntary mobilizations."

However, Soldiers who volunteer for active duty (retiree recall, CO-ADSO/COTTAD) or volunteer to remain on active duty (signed a DA Form 1058, Application for Active Duty of Training, Active Duty for Special Work, Temporary Tour of Active Duty, and Annual Training for Soldiers Of the Army National Guard and U. S. Army Reserve) and who are then given/issued/provided 12301(a) 12302, 12304 (involuntary orders) are NOT considered to be on an involuntary mobilization status and consequently do not qualify to earn or accrue any days of PDMRA during their voluntary mobilization period. This is not a change to existing PDMRA policy, rather a clarification of the existing policy and intent of the OSD PDMRA program guidance.

.....

### TPU Time
